

(Monroe Institute Blog - September 30, 2015)

What in the World?

Can you imagine the Global Awakening of Humanity?

What does that look like? How does it feel? As an awakened human, who are you?

The Monroe Institute's vision statement is "The Global Awakening of Humanity."

It is not TMI's mission to "awaken" everyone, nor does TMI contend that the world must be awakened. We simply see that ever-expanded awareness leads inexorably to awakening on a deep level. We see this happening more and more across the planet. We see the work of Robert Monroe and so many others accelerating the massive shift toward global awakening. We see the vision becoming reality.
